Remarques :

Ce rapport ne considère que les machines déclarées en production et qui n'ont pas un statut de panne.  
 Ce rapport ne considère que les machines dans la catégorie infrastructure, pas les postes internes ou publics.  
 Ce rapport considère à la fois les machines physiques et les machines virtuelles.  
 Ce rapport ne considère que les machines sous Debian, aucun autre système.  
 La colonne « Autres » consiste en des systèmes Debian d'une version autre que 7 ou 6.
