Remarques :

Ce rapport ne considère que les machines déclarées en production et qui n'ont pas un statut de panne.
 Ce rapport ne considère que les machines dans les catégories poste interne ou public, donc pas les serveurs.
 Ce rapport ne considère que les machines physiques, pas les machines virtuelles.
 Ce rapport ne considère que les machines sous Ubuntu, aucun autre système.
 La colonne « Autres » consiste en des systèmes Ubuntu d'une version autre que 12.04 ou 10.04.
